Japan in transition, by Emil Lederer and Emy Lederer-Seidler. New Haven, Yale university press; London, H. Milford, Oxford university press, 1938.
xi, 290 p. 23cm.

"The present book is based on a former publication of the authors: Japan-Europe—wandlungen in Fernen Osten... which appeared in Germany in 1929. But the book has been almost wholly rewritten, to include the political as well as the social developments of the last momentous and eventful years. The authors are deeply indebted to Edwin and Helen Mims, who translated the German text, and to Miss Elizabeth Todd, who has edited the manuscript."—Pref.

W65 v.17 Gray, Asa, 1810-1888, ed. ... Botany ... 1874. (Card 2)
The first part, *Cryptogamia*, was printed in or before 1862. Of these
parts, *Musci*, by W. S. Sullivant, was published in a separate edition in
1859, with letterpress in folio to match the plates. Extra copies of the
other three parts (*Lichenes*, *Algae*, and *Fungi*), and the plates of Torrey's
Phanerogamia were secured by Asa Gray and distributed among botanists.
When the volume was finally published in 1874, he also secured copies of
Torrey's *Phanerogamia*, and had the four parts, with the folio plates folded,
bound in one volume, with title: U. S. Exploring expedition botany,
I. Lower *Cryptogamia*. II. *Phanerogamia* of the Pacific coast of North
America. It is an imperial 4to of 420 pages and 29 plates. cf. Amer. jour.
sci., 3d ser., viii (1874) p. 321-322.
The contents of this volume (17) are therefore to be found in various
forms:
